

## SELF-CONFIDENCE AND SELF-IMAGE PROGRAMMING

Now fix your eyes on a spot on the ceiling overhead. Just pick out an imaginary spot and stare at that spot without moving a muscle. Now take a deep breath and fill up your lungs. Exhale slowly. Sleep now. And now, a second and even deeper breath. Exhale. Sleep now. And now a third deep breath. Exhale. Sleep now. And now let your eyelids close down, as each muscle and nerve begins to grow loose and limp and lazy. All of your cares and tensions are just fading away. You are relaxing more with each sound that you hear, with each easy breath that you take. You are going deeper, deeper and drowsy relaxation. I am going to count from ten down to one, and as I do, I want you to picture and imagine you are walking down a flight of steps. With each number I count, the quality of your deep relaxation becomes more profound and more intense. When I reach the count of one, you will then be aware that you are enjoying a very healthful and very pleasant state of hypnotic relaxation. Number ten, we take the first step downward, each muscle and each nerve grows loose and limp and relaxed. Number nine, the wave of relaxation spreads all across your body. Number 8, you are relaxing more with each easy breath that you take, with each sound that you hear. You are going deeper, deeper in drowsy relaxation. Number seven, every muscle and every nerve

is growing so loose and limp and lazy. Number six, you are moving down and toward a new and deeper level of hypnotic relaxation. Number five, you are half way down now, and when I reach the count one, I will say the words, "sleep deeply". You will then be aware that you are more deeply relaxed than ever before. Number four, each muscle and nerve let's loose, relaxing, you are drifting down, deeper and deeper in sleep. Number three, going down deeper in drowsy relaxation. Number two, on the next number now, I will give you the signal. I will say the words, "sleep deeply". When I do, you will then be aware that you are enjoying a very healthful and a very profound state of hypnotic relaxation. Number one, sleep deeply. Now just relax and go deeper into sleep. As you go deeper into relaxation you are realizing that you are a constantly growing and maturing personality. You are becoming aware of the strength and abilities that have developed within you. You are feeling a sense of confidence in your ability to achieve the goals you have chosen for yourself. You are learning to believe in yourself. ~~You are learning to believe in yourself.~~ You appreciate yourself. You do good and kind things for yourself. Now I am going to count from 3 down to 1. Then, I'll say the word "personal success." This is the sign to program your imagination with scenes that represent your personal success. This is the time in which you can now see yourself thinking, feeling, acting, in that special way that means to you personal success. Alright, get ready now, 3 - 2 - 1 - personal success. You realize that your ability to sleep deeply, soundly and continuously is a natural function. <sup>INFANTS</sup> Instant sleep whenever they need sleep. Young

children go to sleep easily whenever they feel tired. Sleep is nature's great restorer. Sleep knits up the ravelled sleeve of care. Every living creature has a time for sleeping. And so each night when you get in bed with the intention of going to sleep, within a very short time after you close your eyelids down, you drift into a sound and natural slumber. You slumber deeply, soundly, and continuously all night long. Your slumber is undisturbed unless there is some good and necessary reason for you to awaken. If there is such a reason you will awaken instantly, clear headed, alert, ready to do what is necessary. When this is done you return to your bed and easily and quickly return to sleep in two minutes, barring such a necessity you slumber undisturbed throughout the night. The normal noises of the night go on and you are oblivious to them. You slumber soundly through the normal noises of the night. You awaken each morning feeling wonderfully refreshed, having enjoyed one of the best nights sleep of your entire life, because you sleep deeply and soundly. And because you take the time for your programmed relaxation, you have much more energy available to you than ever before. Each moment of relaxation that you enjoy in your programmed method continues expanding and developing into many many hours of relaxation all through your daily life just like the ripples on a pool of water spreading out from the center. From this time forward with each passing day, you

become more and more aware of a wonderful feeling of personal confidence. Confidence in the realization that each day brings you one step closer to your goal. Each day is a vital step in your problem solving, in developing the motivation, to change your behavior, to move yourself toward your highest potential, so that you now begin to enjoy a fuller, a richer and a more expressive life.

Now I am going to slowly count from 1 to 5 and then I'll say, "fully aware." At the count of 5 let your eyelids open and you are then calm, rested, refreshed, relaxed, fully aware, and feeling good in every way. If you wish to return to sleep, you arouse yourself just enough to turn off the equipment that may be playing and then easily and quickly return to sleep within two minutes. Alright, 1 slowly, calmly, easily, gently returning to your full awareness once again. 2 - each muscle and nerve in your body is loose and limp and relaxed, you feel wonderfully good. 3 - from head to toe you are feeling perfect in every way; and Number 4 - your eyes begin to feel sparkling clear just as though they were bathed in cold spring water. On the next number now, let your eyelids open and you are then calm, rested, refreshed, fully aware and feeling good in every way. Number 5 - eyelids open now, you are fully aware. Take a deep breath, fill up your lungs and stretch.
